
PROVISIONAL PATENT APPLICATION

TABLE OF CONTENTS

Title:	Multi-Node Intimate Physiology System for Longitudinal Pattern Measurement, Cross-Device Correlation, and Privacy-Preserving Outputs
Inventor:	Jake Councillor
Residence:	Port St. Lucie, Florida, United States
Filing Date:	February 14, 2026
Entity:	Small Entity
Total Documents:	84 PDF Files

COVER

01	Cover Sheet
----	-------------

SYSTEM SPECIFICATION

02	Field of the Invention & System Overview
03	Field of the Invention & System Overview (Duplicate)
04	Node-Specific Disclosure Overview (Pre-Page)
05	Background and Limitations of Existing Approaches
06	Summary of the Invention
07	Brief Description of the Drawings
08	Definitions and Terminology
09	System Architecture Overview
10	Data Pipeline and Metric Generation
11	General Embodiments and Variations
12	Detailed Description of the System

NODE OVERVIEWS (IN MAIN SPECIFICATION)

- 13** Node 1 — All-Day/Night External Tumescence & Rigidity Monitor
- 14** Node 2 — Intravaginal Longitudinal Physiology Monitor
- 15** Node 3 — Self-Scan External Geometry Measurement Device
- 16** Node 4 — Intraluminal Geometry, Compliance & Contact Device
- 17** Node 5 — Upper-Body Physiologic Context Device

CROSS-DEVICE, WORKFLOWS, PRIVACY & CLAIMS

- 18** Cross-Device Correlation and Contextual Interpretation
- 19** Cross-User Correlation and Pairing-Context Methods
- 20** Example Workflows and Operating Modes
- 21** Privacy, Security, and Data Governance
- 22** Computing System, Software Architecture & Implementation
- 23** Example Claim-Style Statements and Scope
- 24** Figures, Reference Numerals & Illustrative Diagrams
- 25** Definitions, Terminology & Interpretation
- 26** Advantages and Industrial Applicability
- 27** Abstract and Final Notes

APPENDICES

- 28** Appendix B — Parameters, Sampling Modes & Quality Indices
- 29** Appendix C — Consent, Sharing Flows & Access Control
- 30** Appendix D — Materials, Sealing, Cleaning & Power/Charging
- 31** Appendix E — Privacy-Preserving Output Formats & UI
- 32** Appendix F — Validation, Anti-Spoof & Data Integrity
- 33** Appendix G — Exemplary Metrics, Indices & Features
- 34** Appendix H — Embodiment Combinations & Variants
- 35** Appendix J — Kits, Accessories, Packaging & Deployment
- 36** Appendix K — Communications, Sync & Data Pipeline
- 37** Appendix L — Exemplar Claim-Like Statements
- 38** Appendix M — Figures, Drawings & Reference Labels
- 39** Appendix N — Definitions, Terminology & Interpretation Rules

NODE 1 — EXTERNAL LONGITUDINAL WEARABLE (DETAILED)

- 40** Technical Field & Summary
- 41** Sampling, Quality Indices, Processing & Outputs
- 42** Mechanical Architecture, Power & Communications
- 43** Claim-Like Statements

NODE 2 — INTRAVAGINAL LONGITUDINAL WEARABLE (DETAILED)

- 44** Technical Field & Summary
- 45** Sampling, Quality Indices, Artifact Rejection & Outputs
- 46** Mechanical Architecture, Electrodes & Power
- 47** Claim-Like Statements

NODE 3 — EXTERNAL GEOMETRY SCANNER (DETAILED)

- 48** Technical Field & Summary
- 49** Scan Modes, Validation, Quality Indices & Anti-Spoof
- 50** Hardware Architecture, Power & Standalone Use Cases
- 51** Claim-Like Statements

NODE 4 — INTRALUMINAL GEOMETRY/COMPLIANCE DEVICE (DETAILED)

- 52** Technical Field & Summary
- 53** Hardware Architecture, Actuation & Power
- 54** Claim-Like Statements

NODE 5 — UPPER-BODY CONTEXT NODE (DETAILED)

- 55** Technical Field & Summary
- 56** Derived Features, Quality Indices & Interpretation
- 57** Hardware Architecture, Power & Standalone Use Cases
- 58** Claim-Like Statements

VIBRATION, HAPTICS & ACTIVE STIMULUS

- 59** Node 1 — Haptics Preliminary Overview
- 60** Node 1 — Haptic Guidance, Coupling & Event Marking
- 61** Node 1 — Closed-Loop Actuation & Consent Controls
- 62** Node 2 — Internal Vibration & Haptic Stimulus
- 63** Node 3 — Tactile Guidance & Scan Feedback
- 64** Node 4 — Mechanical Stimulus Integration
- 65** Node 5 — Somatic Feedback & Cross-Node Coordination

ULTRASOUND ENDPOINT SENSING (NODE 4)

- 66** Technical Field & Summary — Ultrasound Distance/Geometry
- 67** Ultrasound Modes, Frequency, Calibration & Quality
- 68** Multi-Axis Endpointing, Feature Discrimination & Robustness

NODE 5 AS SYSTEM CONTEXT ANCHOR

- 69** State Disambiguation, Artifact Control & Confidence
- 70** Architecture, Derived Systemic State & Interpretation
- 71** Context-Conditioned Baselines & Longitudinal Comparability

SECURITY & PRIVACY

- 72** On-Device Encryption, Key Management & Secure Comms
- 73** Secure Boot, Firmware Integrity & Audit Controls
- 74** Privacy-by-Design: Abstracted Metrics & Safe Correlation

SPECIALTY DISCLOSURES

- 75** Sensor-Derived Sigil — Abstract Physiological Visualization
- 76** Future-Proof Symbolic Compatibility Framework

HARMONY, INTELLIGENCE & EXTENDED DISCLOSURES

- 77** Harmony Engine — Cross-Architecture Physiological Correlation
- 78** Harmony Profile — Portability & Third-Party Integration
- 79** Nexalis Connect & Vow — Alignment-Based Matching
- 80** Health & Compatibility Intelligence Engines
- 81** Sigil Parametric Grammar & Deterministic Rendering
- 82** Meridia Dual-Protocol Sensing & Spine Architecture
- 83** AI Companion & Shared Intelligence

FIGURE DRAWINGS

- 84** Consolidated Patent Figures (FIGS. 1–18)
